

ATEX Battery Pack

ATEX-certified High Capacity Power Source

The ATEX battery pack is a market leading power solution for hazardous environments.

Designed to operate safely in intrinsically safe applications, the ATEX battery pack allows for accelerated dial-in for remote logging applications.

Fully waterproof, the ATEX battery pack can be easily installed in the harshest environments.

Key Features

- **Certification:** certified for use in Zone 0 hazardous areas (visit HWM Global website for certification details).
- **Accelerated dial-in:** the ATEX battery pack supports accelerated dial-in for HWM Global wastewater data loggers, supporting deployment in critical applications.
- **Long life:** allows for 30 minute logging for up to 5 years when used with an Intelligens WW data logger.

Specifications

- **Dimensions:** 280H x 115W x 50D (mm) - 7.5" x 3.1" x 2.8"
- **Weight:** 2kg (4.5lb) (double)
- **Operating Temp:** -20 to +60°C (-5 to +140°F).

Intelligens WW

Multi-channel Data Logger

Intelligens WW is an intrinsically safe, multi-channel logger ideally suited to a variety of wastewater applications. A flexible and rugged solution that can be tailored to specific applications, Intelligens WW is UKCA/ATEX-certified (Zone 0) for use in explosive environments.

HWM Global Apps

Logger Installation Support

The HWM Global Deployment App is an installation tool that supports the quick and effective deployment of HWM Global manufactured data loggers. As well as recording installation details, the IDT App is used to test signal strength during installation.
