

PermaNET Web

Secure Data Viewing Portal

PermaNET Web is a digital platform created to gather, collate and easily display the leak noise data collected by PermaNET devices.

Available on any internet-enabled device, PermaNET Web is an easy to use, secure platform with multiple functions that support leak noise interpretation.

Key Features and Benefits

- **Two-way communication:** local and remote parameter settings
- **Auto processing:** interference and external noise filtering
- **Dynamic DMA management:** full DMA views available
- **GIS pipe network:** overlay GIS data with Google Maps to provide dynamic location information
- **Data security:** multiple security features including firewall, individual logins and locational access
- **Compatible:** supported by most major internet browsers
- **Noise filtering:** auto-processing for equalisation and frequency correlation display and coherence
- **Alarm profiles:** alarms available via e-mail
- **Audio data recording:** audio data is sent to the server if a leak is present
- **Reassuringly secure:** HWM awarded ISO 27001 accreditation for data security
- **Stores historic data:** ability to compare current data with historic data
