

FLOW MEASUREMENT DATA LOGGING LEAK DETECTION PRESSURE CONTROL ENVIRONMENTAL MONITORING

KEY BENEFITS

- Suitable for use in remote and unattended locations.
- Easy to set up.
- Used for standard rainfall and precipitation measurements.
- Flood Warning System option available.
- Proven system.
- Low maintenance.
- Works with HWM DataLoggers.

The HWM Tipping Bucket Rain gauge is recognised as the standard for measuring rainfall and precipitation in remote and unattended locations.

The unit consists of a collector funnel, a stainless steel filter and a tipping bucket mechanism. The bucket tips when precipitation of 0.2mm, 0.5mm, 1.0mm or 0.01 inch has been collected.

Each tip is marked by a reed switch closure and stored on a HWM Data Rainfall Data Logger or transmitted via a Telemetry System.

Two models are currently available:

MODEL TB-200

The Tipping Bucket Rain gauge is designed for general rainfall measurements. The unit has a 200mm diameter receiver with tipping buckets available to measure each 0.2, 0.5, 1.0mm or 0.01 inch of precipitation. Each gauge is supplied with a syphon, which can be dismantled for routine servicing and provides improved calibration.

MODEL TB-100

Specifically designed to suit the ALERT Flood Warning System, the TB-100 has a 305mm diameter receiver with a bucket tip for each 1.0mm of precipitation.

MODEL TB-200

Bucket size	To be specified: 0.2, 0.5, 1.0mm or 0.01 inch.
Receiver	200mm \pm 0.3mm diameter with machined Aluminium rim
Sensitivity	One tip at 0.2, 0.5, 1.0mm or 0.01 inch
Measuring range	0–700mm/hr
Measuring accuracy	\pm 2% 25–500mm/hr
Sensor	Tipping bucket with syphon
Contact system	Dual reed switch (make contact)
Contact capacity	12VA (0.5 amp max.)
Contact time	0.1 second
Height	342mm
Weight	3 kg
Packed dimensions	4.2 kg; 0.03m ³ Supplied complete with 10m of connecting lead

MODEL TB-100

Receiver	305mm diameter with machined Aluminium rim
Sensitivity	One tip at 1.0mm
Measuring range	0–700mm/hr
Measuring accuracy	\pm 2% 25–500mm/hr
Sensor	Tipping bucket
Contact system	Dual reed switch (make contact)
Contact capacity	12VA (0.5 amp max.)
Contact time	0.1 second
Height	505mm
Weight	5.6 kg
Packed dimensions	8 kg; 0.07m ³
