## How to put a Permalog + logger into 'sleep' mode

If you want to put a Permalog logger to sleep (for instance you want to store it for a long time) then you can do so using the PDA/PC and Patroller.

Go to P+ Set up

Click on 'Program'

Click on 'Discover' to find the P+ you want to put to sleep

Check the box 'Sleep'

Click 'Program' again and check the confirmation at the top of the screen.

See page 31/32 of the MAN-096-0001-J Patroller User Manual issue J
