

**Ref: FAQ0076****Version: 1.0****Title – Cancel logger Repeat alarm****Made By: 22/01/15****(Issue 1)**

## How to turn off the alarm repeat at midnight in Radcom loggers

You can turn off the reminder either by sending a text message (from memory this doesn't work on early versions of firmware) or by connecting to the logger and using Radterm software -

SMS command is: 000065EFPDAEW#

Radterm command is: ..000000065EFPDAEW<cr>
