Title - Radwin how to correct meter readings

Made By: AB 18/09/15 (Is

## (Issue 2)

## How to correct meter readings in Radwin software

From Radwin View – Click on the 'Open Data File' icon – top left area of screen Find the logger you want to change and highlight it –

Location Select - Data Time Period	_ <b>□</b> ×
Data File Data Time Period	
Southlakeland Parks	🛅 🗙 🛅 📰 🕇 🛠 🗖

Radwin meter readings should now increment at the same rate as HWM Online – however note that HWM Online is taking a direct reading from the logger whereas Radwin is calculating the meter reading from the flow data it is receiving (HWM Online is likely to be more accurate)
